“Delivering Operator Driven Reliability”

AGENDA

- 0830 – 0845 Introductions
- 0850 – 1030 MAINTelligence Overview
 - Database, Inspections / Operator Driven Reliability, Predictive Maintenance, Work Management / Logistics Management & Diagnostics
- 1030 – 1045 Coffee Break
- 1050 - 1130 MAINTelligence Overview (continued)
- 1135 – 1230 MAINTelligence Instrument Review
 - InspectCE / Liberator / Thermometers, GE / Commtest Vibration Data Collectors, Ultrasonic instruments, Thermography Cameras & Oil Analysis Results
- 1230 – 1330 Lunch & Prayer Break
- 1340 – 1430 MAINTelligence New Capability Introduction
 - InspectNET / Panasonic Touchpad, InfoBoard Data Dashboard, Visual Calendar & Development track for 2016-2017
- 1430 – 1445 Coffee Break
- 1450 – 1515 ERP / Process Control System Interfaces
 - SAP PM Module Interface & OSIsoft / AspenTech / Honeywell / OPC Interface
- 1520 – 1630 Customer Application Review

REGISTRATION

*We invite you to attend our **FREE** informative seminar series. Space is limited, so we encourage you to confirm your attendance early.*
